

**PRESIDENT ENDORSES CLEAN, NATURAL GAS RACECARS**—President Bill Clinton endorsed a cleaner environment when he signed the hood of a one-of-a-kind 1994 Mustang racecar that runs on compressed natural gas (CNG) at the recent 30th anniversary celebration of the Mustang at the Charlotte Motor Speedway. This unique Mustang is part of a celebrity motorsports program being developed by Paul Rossi (left) of Paul Rossi Performance Engineering of Fallbrook, California to draw attention to the performance and environmental advantages of CNG as a mainstream automotive fuel. The program is rolling out 1994 under the "Earth Wins Tour" banner and features displays at major events to raise awareness and sponsor support for the 1995 kick-off of the Cobra Cup celebrity race series. **For information, contact Paul Rossi at : [www.PaulRossiRacing.com](http://www.PaulRossiRacing.com)**
